

# 4" - 4.5" SANDERS

## 4" & 4.5" Right Angle Sander Features and Specifications

This is a medium size dust free sander that is high in productivity. The unit is offered in both pneumatic and electric powered models. The shroud is available in either a *round style* for general cleaning or a *bullnose style* for cleaning next to a wall. The round style shroud is best for environmental applications. The sanders are available as kits and systems.

Weight:  
Air tool..... 7 lbs  
Electric Tool..... 8 lbs  
Speed:  
Air tool..... 12,000 rpm  
Electric tool..... 10,000 rpm

### Sanders

Desco manufactures a wide range of sanders, grinders and detail tools. To provide extended life and durability, many models are outfitted with zerc fittings that enable easy maintenance and tool lubrication. Safety is of key importance as almost all Desco sanders are outfitted with Double Safety Lock off Levers. Desco Dust Free Sanders and grinders are also engineered to provide the highest level of containment on the market today. Desco's floating shroud is engineered to provide maximum containment for those applications involving highly contaminated material, including lead, chromates, and radioactive.
